

UMAP of Bacteroidales based on presense and absence of cazyme families
colored by species

species

- | | |
|-------------------------------------|-----------------------------------|
| <i>Alistipes communis</i> | <i>Bacteroides xylanisolvens</i> |
| <i>Alistipes finegoldii</i> | <i>Butyricimonas paravirosa</i> |
| <i>Alistipes onderdonkii</i> | <i>Butyricimonas synergistica</i> |
| <i>Alistipes putredinis</i> | <i>Hoyleseella buccalis</i> |
| <i>Alistipes shahii</i> | <i>Leyella stercorea</i> |
| <i>Bacteroides caccae</i> | <i>Odoribacter splanchnicus</i> |
| <i>Bacteroides cellulosilyticus</i> | <i>Parabacteroides distasonis</i> |
| <i>Bacteroides eggerthii</i> | <i>Parabacteroides johnsonii</i> |
| <i>Bacteroides faecis</i> | <i>Parabacteroides merdae</i> |
| <i>Bacteroides finegoldii</i> | <i>Phocaeicola coprocola</i> |
| <i>Bacteroides fragilis</i> | <i>Phocaeicola dorei</i> |
| <i>Bacteroides intestinalis</i> | <i>Phocaeicola massiliensis</i> |
| <i>Bacteroides nordii</i> | <i>Phocaeicola vulgatus</i> |
| <i>Bacteroides ovatus</i> | <i>Segatella brasiliensis</i> |
| <i>Bacteroides salyersiae</i> | <i>Segatella brusvicensis</i> |
| <i>Bacteroides stercoris</i> | <i>Segatella copri</i> |
| <i>Bacteroides thetaiotaomicron</i> | <i>Segatella sinica</i> |
| <i>Bacteroides uniformis</i> | |
